

Webbflex Solvent Cleaner

PU Foam Solvent Cleaner

Features & Benefits

- PU foam gun cleaner
- Dual purpose cleaner / aerosol
- Fits most PU foam guns
- Removes uncured PU foam
- Non-ozone depleting propellant

Description

Webbflex PU Foam Solvent Cleaner is a powerful solvent-based aerosol. The propellant used has no ozone depleting potential. The product is supplied in 500ml pressurised plated steel canisters complete with a threaded adaptor for screwing onto PU application guns and with a spray adapter to allow application to a cleaning cloth.

Typical Uses

Webbflex PU Foam Solvent cleaner is designed for the cleaning of PU foam applicators and the removal of uncured Webbflex PU Foam from metal ancillary equipment. It can also be used to clean the nozzles of Webbflex In-Situ grade PU foam. The product will not dissolve cured PU foam.

Application

Use only in a well-ventilated area, preferably outside and protect surrounding surfaces from splashes. Wear protective equipment. Shake the can to mix the contents before use and periodically during use. If using a dispensing gun screw the canister onto the gun and thereafter follow the canister label instructions.

Technical Information

Type	Acetone Based
Application Temperature Range	+5°C to +36°C
Storage Temperature	+5°C to +25°C
Shelf Life	9 months
Packaging	500 ml canisters x 12 per box

Storage

Store between + 5°C and 25°C in dry conditions upright and in original packaging. Shelf life approximately 9 months. Do not expose to direct sunlight.

Limitations

Do not use for general cleaning applications. May soften and discolour some materials (e.g. plastics). The product will not dissolve cured PU foam.

Health & Safety

Product Health and Safety Data Sheet must be read and understood before use.
