Features & Benefits:

Automatic piston return
High install rate with low user fatigue

Magazine or single shot tool
Automatic firing of up to 10 pins using the magazine

Disc system
All-metal cartridges eliminate warping at high temperatures. Sequential disc system means less load wastage

Power adjustment
Versatile: one pin and one load can be adapted to fix into different base materials

High power
Multi-purpose suitable for use in concrete or steel

Sequential shot
Safety: tool needs to be actuated with 17kg of pressure to generate a shot

Energy absorbing bumper
Absorbs vibration & reduces recoil during firing

Adjustable magazine
4 adjustable positions give greater flexibility when working in confined spaces

Easy maintenance
The fastest powder tool to dismantle, clean and put back together allowing on site maintenance and reduced down time

The fully automatic Spitfire P370 Disc Cartridge Tool is the professional's choice for cartridge nailing

Suitable for use in steel and concrete applications
